

THE THERMAL-LUBE

HIGH TEMPERATURE SYNTHETIC PAO VACUUM OIL

XL0855

June 2022

XL0855 is a fully synthetic fluid formulated specifically to ensure lubrication at high temperatures and vacuum. **XL0855** contains state-of-the-art synthetic additives blended with a stable, long-chain synthetic base stock of the highest purity.

XL0855 is totally ashless, non-carbonizing, and exhibits low volatility. Upon approaching its maximum temperature (400°C), **XL0855** will slowly evaporate without residue.

XL0855/101 is suitable for high-temperature, high-Torr vacuum applications.

XL0855 is relatively non-toxic and is authorized for use in food and meat producing plants (H2). Applications can be found in glass forming and heat treating conveyor ovens; textile Tenter frames and dry cans; food wafer oven chains; baking ovens in the metal annealing and smelting industries, etc.

XL0855 is formulated to meet all ISO grades, and is suitable for most standard drip and spray mist lubrication systems. Compatibility with mineral oils, and other synthetics (except glycol-based products) is excellent.

ADVANTAGES

- Non-Carbonizing
- Anti-Wear
- Anti-Foam
- Highly Resistant to Chemical Breakdown
- High Temperature Stability

TYPICAL SPECIFICATIONS

Product Code: XL0855	/022	/032	/046	/068	/100	/101	/220
