

THE THERMAL-LUBE

ANTI-CORROSIVE AND DIELECTRIC PENETRATING OIL

XL6332

July 2022

XL6332 is an all-purpose penetrating oil specifically designed to drive out moisture and rust, and to free and protect machine parts, electric, and electronic devices.

XL6332 will penetrate deeply into non-accessible metal surfaces, displace humidity, and dissolve rust, corrosion, and scale. It will clean the grease and dirt from the surface leaving behind a thin residual protective film.

APPLICATIONS:

XL6332 is recommended everywhere there is a need for a lubricant to protect against rust and corrosion.

- Electrical generators and motors; ventilators; electric cabinets; lighting fixtures; etc.*
- Maritime and mining equipment; auto and aeronautics; cold rooms; locks; clocks; etc.*
- Electronic photographic and cinema-graphic equipment. *
- Electronic office equipment; computer fans; etc.*
- Chains; conveyors; assembly lines; sprinklers; and air tools. *

ADVANTAGES:

- Dielectric to 15 000 volts.
- Very low surface tension guarantees an excellent penetration deep into the surface structure
- Prevents the formation of ice crystals while evaporating into locks
- Is compatible with most plastics, seals and gaskets, glass, and metal*
- Eliminates electrical short-circuit arcing
- Keeps connections clean in electrical relays and circuit breakers
- Excellent protection against rust and corrosion
- Does not attract dust and dirt, and will not oxidize at high temperatures
- Offered in liquid or aerosol formats.

* It is the responsibility of the end user to verify the compatibility of XL6332 to the surfaces sprayed.

TYPICAL SPECIFICATIONS	
Product Code: XL6332	/000
Viscosity (cSt @ 40°C) (ASTM D445)	10
Flash Point °C, (°F).	45 (113)
Density (g/ml)	0.80
Colour	Amber
Odour	Petroleum Oil

AVAILABLE:

400ml aerosol; 20 liters, 60 liters, 205 liters and 1000 liters

255 Ave Labrosse, Pointe-Claire, Québec, Canada H9R 1A3
