

THERMAL-LUBE

SYNTHETIC SPINDLE & TWISTER RING OIL FOR THE TEXTILE INDUSTRY

XL7345

July 2022

XL7345 is a synthetic water emulsifiable lubricant designed for positive and complete lubrication of spindles, needles and twister rings and other parts of industrial sewing machines.

XL7345 contains anti-static agents that prevent the build up of static electricity on most fabrics (especially synthetics). Static-free operation reduces thread breakage, thereby increasing productivity.

XL7345 contains friction-reducing agents that minimize wear, as well as a specially treated base stock that prevents gumming and carbonization.

- Saves energy
- Prevents wear
- Eliminates static
- Emulsifiable in water
- Prevents heat build-up

255 Ave Labrosse, Pointe-Claire, Québec, Canada H9R 1A3
